

Step 1:

Create a file and open editor

```
root@348b1b94d28058d:~# vi myscript.sh
```

Step 2:

Write a script

```
#This is comment line
echo this is script file
touch testfile
ls
echo end of script file

~
~
~
```

Step 3:

Run the Script

```
root@348b1b94d28058d:~# ./myscript.sh
this is script file
arguments.sh  exit_codes.sh  for_example.sh  if_example.sh  sample.txt  source  systemtime_example.sh  while_example.sh
destination  file.txt        if_else_example.sh  myscript.sh  script1.sh  storing_output.sh  testfile
end of script file
root@348b1b94d28058d:~#
```
